

Reading Horizons Discovery® Florida State Standard Correlations for Basic Skills in Reading K-2 (#5010020)

Reading Horizons Discovery® employs a structured approach to provide systematic, explicit instruction while integrating listening, speaking, reading, and writing. The emphasis of instruction is on phoneme awareness, sound-symbol correspondences, patterns and conventions of print, and the morphological, syntactical, and semantical aspects of language. This proven method provides students with the solid foundation that is necessary for proficient reading and writing.

Reading Horizons Vocabulary Terms

The following terms will be used throughout the correlation to illustrate the diverse ways in which Reading Horizons product offerings meet the listed standards.

1. **Dictation** is an interactive, multisensory process that is vital to the proper implementation of the Reading Horizons method. It can be performed one-on-one, in small groups, or with an entire class; in all cases, it should be a part of every skill lesson's classroom instruction. First, the leader provides a sound, letter name, slide, or word by extending his or her hands outward from the mouth to the class twice in a row. The students "catch" the offering with their outstretched hands and bring it forward to their ears. The process then reverses with the class sending the word twice and the teacher receiving it. Then, the class writes and marks (or proves) the letter, slide, or word while the teacher provides (when possible) a context sentence. Next, the students display their answers while the teacher formatively assesses and provides corrective feedback where needed. Finally, the teacher and students place their fingers beneath what they have written and read it aloud twice in a row, making sure to keep their eyes on what they are reading.
2. **Eraser Game** can be played after every instance of dictation. This game is a simple way to reinforce concepts and to provide opportunities for students to follow directions and identify skills that are of particular concern to the teacher. Students should erase words based on the instructions given by the teacher. Students can erase words based on a sound or letter at the beginning, middle, or end of a word. Teachers can increase difficulty by having students erase words based on definition, synonym, antonym, alphabetical order, or even by the answer to a riddle. See examples below. The examples assume students have the words *jog*, *cat*, and *sun* on their boards.
 - a. Erase the word that rhymes with *fog*.
 - b. Erase the word that has the same vowel sound as the word *map*.
 - c. Erase the word that means *a bright star near our planet that gives light*.

3. **Letter Formation Pages** provide opportunities for students to practice proper letter formation.
4. **Letter Formation Transfer Cards** accompany the Kindergarten Teacher’s Kit. These cards show proper letter formation in large print. These cards can be used to help students practice proper letter formation.
5. **Little Books** are controlled-vocabulary fiction and non-fiction stories and passages with original illustrations. Each skill lesson has an accompanying Little Book to provide students with the opportunity to reinforce and transfer concepts to connected text as students progress through the course.
 - a. Sample Little Book: [The Chest of Gold](#)
 - b. Sample Nonfiction Little Book: [Whales](#)
6. **Most Common Words**, also referred to as high-frequency or sight words, are taught throughout the *Reading Horizons Discovery*[®] program. The Most Common Words (MCWs) taught in this program include high-frequency words derived from Fry’s Instant Words List and are introduced in order of frequency. They are presented early on so that students can begin reading words in context sentences. They are not just memorized but are approached from a linguistic standpoint.
 - a. There are 30 MCWs taught across eight lessons in the Kindergarten track.
 - b. There are 300 MCWs taught across 22 lessons in the grades 1-3 tracks. There are 10 to 20 words in each list.

MCWs appear in sentences on Transfer Cards (see Student Transfer Cards below). Printable Word Wall and Flash Cards are available on the teacher resource website *Reading Horizons Accelerate*[®] at www.rhaccelerate.com.

7. **Practice Pages** are a collection of blackline masters that correlate with the *Reading Horizons Discovery*[®] lessons. They have been developed to provide additional practice and skills reinforcement.
8. **Reading Horizons Discovery**[®] refers to the suite of products in the strategy-based K-3 reading program. Scripted, non-consumable, direct instruction materials empower teachers to teach effectively right away. Engaging, interactive software allows students the freedom to work at their own pace and receive highly differentiated reading instruction while learning skills that drastically decrease reading, spelling, and pronunciation errors.
 - a. [Reading Horizons Method Overview](#)
 - b. [Sample Lesson: Lesson 28: Digraphs](#)
 - c. [Sample Lesson: Lesson 48: Adding Suffixes to Phonetic Skills 3 and 4](#)

9. **Reading Horizons Discovery® Spelling Supplement** refers to the suite of products that flip the decoding skills taught in the reading program to teach students how to spell words. There are individual kits for each grade level in grades 1-3. Each kit contains direct instruction materials, pretests, posttests, writing prompts, cloze passages, sort and spell activities, and more.
10. **Reading Horizons Elevate®** refers to the suite of products in the strategy-based reading program designed for grades 4 and up. Scripted, non-consumable, direct instruction materials empower teachers to teach effectively right away. Engaging, interactive software allows students the freedom to work at their own pace and receive highly differentiated reading instruction while learning skills that drastically decrease reading, spelling, and pronunciation errors.
11. **Reading Records** are used with Little Books (see above) to provide an additional way to assess mastery of skills taught in the *Reading Horizons Discovery®* program. Reading Records can be administered to individual students as often as at the conclusion of every skill lesson, or less often to periodically measure cumulative mastery of previously taught skills. Reading Records can be used to
 - a. assess student mastery of instruction.
 - b. analyze student reading behavior as they orally read connected text.
 - c. observe how students independently transfer strategies and skills to decode and comprehend text.
 - d. guide instruction by identifying specific areas of need.
 - e. identify skills students utilize when encountering words that they don't automatically recognize.
 - f. determine whether or not students are relying solely on whole word memorization when reading.
 - g. measure progress over time as RHD skills become more complex.
 - h. determine areas of proficiency or instructional need regarding rate, accuracy, metacognition, and comprehension.

A Reading Record form accompanies each Little Book. Forms for shorter books contain the entire text from each book. As books get longer, only the first 100-150 words of text from each book are printed on the form. The Reading Record forms are generally similar to traditional running record forms with a few notable differences in the way reading behaviors are analyzed on the word level in relation to decodable text.

12. **Skill Checks** are designed as one-on-one assessments of skills taught. Skill Checks help the teacher determine areas of strength as well as areas in which extra help is necessary.
13. **Student Transfer Cards** contain words and sentences that are designed to provide students with opportunities to learn to recognize the print form of the same sounds they were taught during the lesson. All words and sentences on the Transfer Cards are vocabulary controlled to include, but not exceed, the skills taught to that point in the program. Students can read and mark (or prove) the words on the card. Once isolated words have been marked and read, the sentences at the bottom of the card can be read aloud for fluency and comprehension.

14. **Transfer Cards** is a generic term that refers to both Student and Whole Class Transfer Cards.

15. **Whole Class Transfer Cards** are designed to facilitate automaticity in the recognition of the spelling patterns of the English language and the sounds they represent. Whole Class Transfer Cards can be projected and are meant to be read chorally by the class after they have completed the Guided Practice and Dictation section of the instruction. Skills on the Whole Class Transfer Cards progress from sound to slide to word and, finally, to sentence and passage.
