

READING HORIZONS DISCOVERY[™]

FOR INTERVENTION

Empowering K–3 educators with the tools and support they need to deliver effective, data-driven reading intervention.

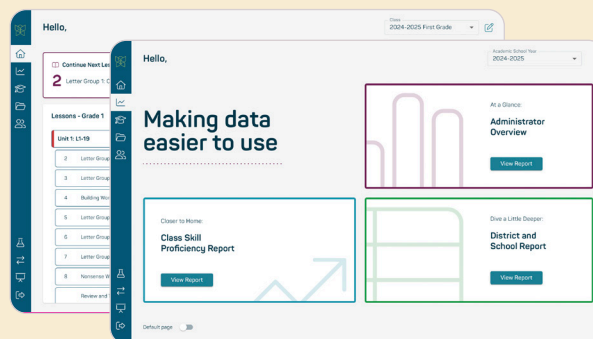

DELIVERING CONFIDENCE IN K–3 READING SUPPORT

Reading Horizons Discovery® (RHD) for Intervention empowers teachers to confidently deliver foundational literacy lessons tailored to students needing targeted literacy support. Designed to fit seamlessly into intervention settings, RHD for Intervention provides a consistent approach that aligns with Tier 1 instruction while addressing individual skill deficits through flexible resources, real-time data, and differentiated instruction.

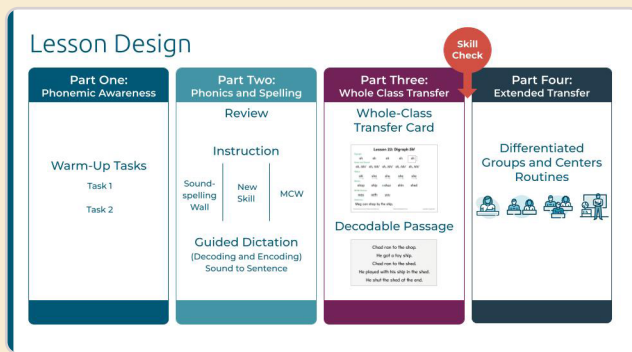

KEY BENEFITS AND ADVANTAGES

Adaptable Instruction Aligned Across All Tiers

RHD for Intervention ensures instructional consistency using shared language, routines, and strategies across all tiers. This consistency reduces cognitive load for students, allowing them to focus on skill development rather than adjusting to new instructional methods.

Simple navigation from one central hub gives teachers access to lessons, assessments, and student progress data.

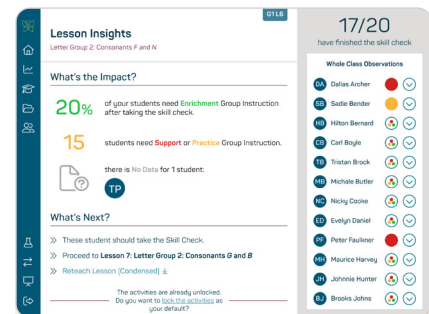

Consistent language and instruction help students build familiarity and fluency across all settings.

Comprehensive, Data-Driven Insights Guide Instruction

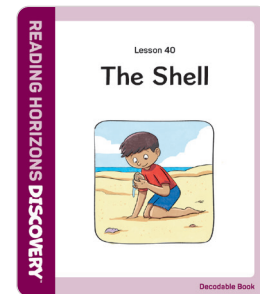

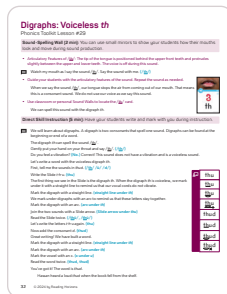

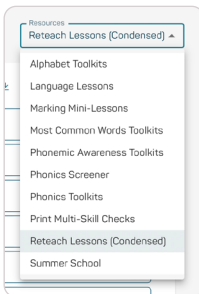

With built-in assessments like the Phonics Screener and Skill Checks, teachers can access data insights to quickly identify skill gaps and guide targeted instruction. These insights ensure intervention time is used efficiently.

Flexible Resources for Diverse Classroom Needs

RHD for Intervention offers a range of tools, from digital lessons to phonics toolkits, empowering interventionists to adapt instruction based on real-time data and available resources. Whether working in tech-rich or low-tech environments, RHD for Intervention provides flexibility to suit every classroom.

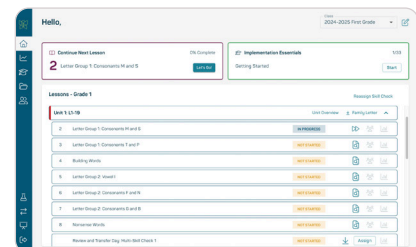

Instantly see student performance at a glance, enabling precise, responsive instruction.

Digital or print—resources that work for any classroom setup.

Easy-to-Follow Curriculum and Lesson Prep

Designed for educators, RHD for Intervention is built upon *Reading Horizons Discovery*® LIVE, which simplifies teaching with easy access to digital lessons, assessments, student data, and lesson-embedded Real-Time Coaching modules. The platform empowers teachers to tailor instruction to every learner's needs, while providing real-time insights into their progress.

Everything you need—right at your fingertips.

TARGETED INSTRUCTION FOR EVERY LEARNER

SCREENING FOR SUCCESS

With the Phonics Screener, educators quickly identify specific skill gaps, allowing for precise intervention that targets the exact areas where students need help.

 Targeted instruction starts with precise insights.

REAL-TIME COACHING

Mini-Modules embedded within the platform provide real-time guidance for interventionists on delivering corrective feedback, identifying common errors, and offering targeted support.

 Just-in-time coaching for real-time results.

VISUAL AND MULTIMODAL SUPPORT

RHD for Intervention integrates a multisensory approach, engaging students through auditory, visual, and kinesthetic activities. Digital projection tools enable teachers to bring essential visuals, such as phoneme cards and posters, into any setting—perfect for mobile interventionists.

 Multisensory tools that travel with you.

IMPLEMENTATION AND DIFFERENTIATION

 **Reading Horizons Discovery[®]**
Pacing Guide: Grade 1
32-Week School Year (160 Instructional Days)

• 123 Lessons
• 25 Review and Transfer Days + Multi-Skill Checks
• 1 Baseline Check
• 3 Cumulative Skill Checks
• 153 Days Total

Note: Due to the total number of days offered between the program and the instructional day expectation for each school year. This difference is acceptable. In weeks with fewer than five primary lessons, there is room for additional differentiation using the Groups and Centers or Supplemental Resources. For more details, refer to the Pacing Guide Overview.

DIFFERENTIATION WITH EASE

RHD for Intervention’s Review and Transfer Days and Multi-Skill Checks offer teachers the flexibility to adjust pacing based on student progress. The platform provides clear, data-driven insights to help teachers make informed decisions about when to move forward, review critical skills, or reteach previously taught skills.

Pacing that adapts to student progress.

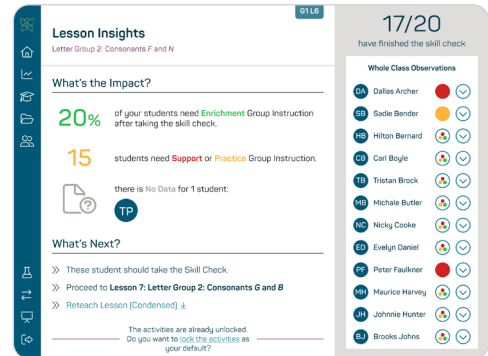

Tools that adapt to any intervention setting.

A COMPREHENSIVE TOOLKIT FOR INTERVENTION

Reading Horizons Discovery® for Intervention offers an extensive range of resources to support targeted intervention. From Student Transfer Books to Phonics Toolkits, teachers have the flexibility to deliver skill practice in both digital and print formats, ensuring every student gets the reinforcement they need to succeed.

REAL-TIME FEEDBACK FOR INFORMED DECISIONS

Using automated Skill Checks and paper/pencil assessments, teachers can continuously monitor student progress and make data-based decisions. This ensures students are receiving the right amount of practice and reinforcement in the skills they need to master.

Automated feedback so you can adjust instruction on the fly.

EMPOWERING TEACHERS. SUPPORTING STUDENTS.

Reading Horizons Discovery® for Intervention gives K–3 educators the confidence, tools, and support they need to deliver effective intervention and help every student build the foundational literacy skills necessary for lifelong success.
